

## Piaggio Mp3 300 HPE

6986.00 €

### Marca: Piaggio

Disponibilidade: **falha de stock**

NEW Piaggio presents at EICMA 2018 the 3-wheeled MP3 300 HPE: According to the brand, Piaggio is the lightest and lightest version of the MP3 Piaggio, equipped with the latest evolution of the single 4-stroke 300 cc cylinder, 4 valves, liquid refrigeration and electronic injection.

Compared with the previous version of the same displacement, the MP3 Piaggio HPE the maximum power reaches 24.6 hp at 7750 rpm, an increase of 16%, while the maximum torque of 24.5 Nm at 6500 rpm, grew by nine percent. The changes? A revised head and piston in the architecture produced a more efficient combustion chamber. In the new MP3, the transmission was also revised, adopting a new belt for the CVT automatic speed variator.

TALK WITH THE PHONE It is also the first MP3 with guide connected. In the Sport version - characterized by matte black finishes, front springs and rear shock absorbers in red, contrast saddle at the seam, footrest profile and with aluminum inserts - and the multimedia platform series PIAGGIO MIA, which allows the device to be switched on to the electronic board system, transforming it into a small computer capable of simultaneously displaying speedometer, rev counter, but also power and torque of the instantaneously supplied engine, longitudinal acceleration, degree of inclination reached in curves, instantaneous fuel consumption and average, medium speed and battery voltage and more. From the smartphone connected to PIAGGIO MIA, you can also view maps and routes and find, for example, gas stations and service points.

Equipped with the three-channel ABS system, developed in collaboration with Continental and ASR traction control, MP3 hpe adds to the list of headlamp technologies with LED DRL and, for comfort, you can count on the integrated windshield and on the saddle with lumbar support for the driver. It also accommodates two jet helmets underneath the compartment.
