

Vespa Gts 125 SuperTech

5929.00 €

Marca: Vespa

Disponibilidade: **falha de stock**

The GTS range features 5 versions: Vespa GTS, GTS Touring, GTS Super, GTS SuperSport and the all-new Vespa GTS SuperTech equipped with a color TFT panel and a VESPA MIA connectivity platform with your smartphone.

In addition to its stylistic development, the 278cc HPE (High Performance Engine) engine, which at 23.8 hp (17.5 kW) at 8,250 rpm and 26 Nm (5,250 rpm) is the most powerful engine placed in a Vespa, with performances at the level of a 350cc engine. At the same time that it delivers more power we also have reduced consumption, by the WMTC standard, of 29.4 km / liter.

The transmission is now covered by a new redesigned lid to reduce noise. The variator, drive belt, cylinder head and camshaft are brand new. The new Magnetti Marelli MIUG4 electronic injection system is state-of-the-art and fully compatible with the future EURO 5 emissions standard

The design evolves in detail: LED headlights and lights, and a sleeker appearance of a new handlebar, new mirrors and a new mane on the mudguard (inspired by the Vespa Sprint).

The seat, in addition to having a new cushion, has been redesigned for greater comfort in driving

The 125 i-Get engine now has the patented RISS (Regulator Inverter Start Stop System) start-stop system that automatically shuts off the engine after a 5-second stop.

The engine delivers 12 hp (9 kW) at 8,250 rpm and a powerful 11.1 Nm at 6,750 rpm. The consumption, estimated by Piaggio is 40km / liter (WMTC cycle).

As normal on Vespas the frame is a single chassis in steel body, the tires are 12 inches, and the double brake disc with the standard ABS ensure a rapid deceleration. The anti-slip control maintains the strength of the vehicle with full grip.

The Vespa Mia connectivity system pairs the Vespa to Smartphone iOS or Android via Bluetooth. In this way, you can see incoming calls and messages in the dashboard. Calls can be accepted through a small button on the handlebar. This button also controls Music Playlists. The
