

Piaggio Beverly 350 Sport Touring Abs E4

6790.00 €

Marca: Piaggio

Disponibilidade: **falha de stock**

The SportTouring Beverly is the first scooter on the market that can be fitted with ABS / ASR option for a more efficient vehicle drive, particularly in more sensitive situations such as a sudden loss of grip, acceleration or braking. Both wheels are equipped with phonic wheel and a sensor for automatically detecting the rotation speed. The sensors are connected to a hydraulic control unit for both channels, which via servo-valves regulate the pressure of the braking system by activating the ABS when the wheel tends to lock. The end result is a complete and constant grip of the tires, with a consequent reduction in braking distances.

Technical features:

MOTOR

Type single cylinder QUASAR, 4 stroke
Displacement (cc) 330 cc
Bore / Stroke (mm) 78 mm / 69 mm
Gasoline unleaded fuel
Compression Ratio $12 \pm 0.5: 1$
Power 33.3 bhp at 8250 rpm
Max. (Nm at rpm / min) 32.3 Nm at 6250 rpm
Liquid cooling
Automatic Variable Gearbox
Electric start
Electronic ignition
Injection Power Electronics
Centrifugal clutch automatic

VEHICLE

Structure Double cradle in high strength steel tubes
front suspension
hydraulic telescopic fork
Rear suspension Double hydraulic shock absorber with adjustment of preload 4 position
Front brake disc Ø 300 mm, with hydraulic control
Rear brake disc Ø 240 mm, with hydraulic control
Front tire 110/70 - 16 "
rear tire 150/70 - 14 "

DIMENSIONS

Length (mm) 2215 mm Width (mm) 760 mm Height seat (mm) 795 mm Wheelbase (mm) 1560 mm
Capacity fuel tank (liters) 13 lts
Dry weight (kg) 191 kg
max. (Km / h) Maximum permitted by law
Euro 3 homologation
