

Vespa Primavera 125 Abs E4

4515.00 €

Marca: Vespa

Disponibilidade: **falha de stock**

For more than 50 years, Vespa carries generations of models designed for the youngest. One of the most significant models of this long tradition is the Vespa Primavera launched in 1968. Today the legend returns with a futuristic and innovative look. A radically new design, a new body built entirely of steel, new dimensions (while remaining agile, but more stable and comfortable), the Vespa Primavera is reborn - moved by ultramodern and environmentally friendly 50cc engines 2 and 4 stroke, 125 cc and 150 cc 4-stroke 3 valves - including some of the technical solutions and the Vespa 946 style, the most prestigious, valuable and technologically advanced model ever conceived in the history of Vespa.

MOTOR

4-Cycle Mono-cylindrical Type Displacement

(cc) 124.5 cc

Diameter / Stroke (mm) 52 mm / 58.6 mm

Unleaded petrol Compression ratio

Power 7.9 Kw at 7,700 rpm Max. (Nm at rotations / min) 10.4 Nm at 6,000 rpm

Cooling To forced air.

Gearbox Automatic speed variator

Start Electric

start Electronic Ignition Feeding By electronic injection -PFI - Port Fuel Injection Automatic

Centrifugal Clutch Dry

VEHICLE

Structure Steel sheet chassis with structural reinforcements Soldiers

Front suspension Mono-arm with coil spring and mono-damper Hydraulic double acting. Course 78 mm.

Rear suspension Helical spring with preload adjustment in 4 Positions and double hydraulic mono-muffler It is made. Course 70 mm.

Front brake Stainless steel disc Ø 200 mm with control hydraulic

Rear brake drum Ø 140 mm, with mechanical control

Front tire 110 / 70-11 "

Rear tire 120 / 70-10 "

DIMENSIONS

Length (mm) 1860 mm

Width (mm) 735 mm

Seat height (mm) 780 mm

Wheelbase (mm) 1340 mm

Fuel tank capacity (Liters) 8.0 liters

Dry weight (kg) 125 kg
